Section 5: Bloomington to Martinsville SR 37 to SR 39

Business Information Survey

July 3, 2012

«AddressBlock»

Greetings,

The Indiana Department of Transportation (INDOT) continues Tier 2 environmental impact studies along the 142-mile I-69 project corridor from Evansville to Indianapolis. This corridor has been divided into six sections for Tier 2 Studies. Each section is being independently reviewed. Michael Baker Jr., Inc. is evaluating potential human and environmental impacts associated with upgrading SR 37 into I-69 in Monroe and Morgan Counties (Section 5). As shown on the enclosed Reference Map (on page 5), Section 5 is approximately 23 miles in length. It begins at SR 37 near Victor Pike (southwest of Bloomington) and continues along SR 37 to SR 39 in Martinsville. Proposed changes in access associated with each alternative are summarized on Table 1: Section 5 Access Comparison.

You have received this survey because this transportation project is being considered for your area and may affect your business. The purpose of this Business Information Survey is to identify issues and concerns of business owners. The information collected in this survey will be incorporated into the analysis of the impacts of this project on the human and natural environment. You may receive additional requests for information about how the proposed project will affect your business in the future.

Please respond to each question as completely as possible. You may contact us at the number below if you have any questions about the project or would like more information about how to respond to this survey. The time you take to complete this survey and any subsequent surveys mailed to you is greatly appreciated. Please return the form to the address below no later than July 27th.

Thank you very much for your assistance.

Sincerely,
MICHAEL BAKER JR., INC.

Mary Jo Hamman

I-69 Evansville to Indianapolis Tier 2 Studies

Business Location

1. Provide the full name and address of your business.

- a. If your business is affiliated with others in the area, please provide the headquarters address if different from the above.

- b. Please provide contact information for future correspondence on this project.

2. On the enclosed map, please mark the location of your business and label the routes of your incoming and outgoing deliveries.

General Information

3. Describe the nature of your business, such as the service provided, the type of office, and the type of products sold or manufactured.

4. How many years has your business been at this location? _____

5. How many full time employees do you have? _____

6. How many part time employees do you have? _____

7. What are your hours and days of operation? _____

8. Do you lease or own your business site? _____

I-69 Evansville to Indianapolis Tier 2 Studies

Transportation and Market Information

9. From where do most of your customers come? (Check all that apply)

- ☐ Bloomington
- ☐ Martinsville
- ☐ Ellettsville
- ☐ Other (Please Identify) _____
- ☐ Out of state

10. From where do most of your employees come? (Check all that apply)

- ☐ Bloomington
- ☐ Martinsville
- ☐ Ellettsville
- ☐ Other (Please Identify) _____
- ☐ Out of state

11. Do employees or customers currently use SR 37 to access your business? _____
If yes, which cross roads or access points along SR 37 are the most important for access?

12. Does your business serve a specialized clientele? _____

13. Does your business have specialized site requirements, such as rail access, acreage, underground storage areas, city water or sewer, permits, etc? _____
If yes, please describe. _____

14. Which of the following types of vehicles regularly access your business? Check all that apply and provide a general estimate of the number per day.

- ☐ Passenger vehicles for employees _____
- ☐ Passenger vehicles for customers _____
- ☐ Delivery trucks _____
- ☐ Rail cars _____
- ☐ Buses _____
- ☐ Other (specify) _____

I-69 Evansville to Indianapolis Tier 2 Studies

Project Impacts

15. Do you currently have plans to expand your business? If yes, describe (add employees, add shifts, expand or build new facility at current site) and be as specific as possible.

16. Do you believe that your business will be directly or indirectly affected by the project? If yes, how do you believe you will be affected?

- a. Do you expect to gain or lose customers? _____
- b. Will access to the site be improved or impeded? _____
- c. Will access to or from your market or service area be improved or impeded?

- d. Will you lose or gain parking spaces? _____
- e. Please describe the effects of any adverse impacts on your ability to continue to conduct business at your current location.

17. Please review the attached table and provide your input on each of the proposed alternatives.

Other Information

18. Please provide any additional information or comments that you would like us to address.
You may also attach additional sheets or a letter from your business with your comments.

Thank you for your participation in this survey

Chapman Lake Instrument Corp.			Mike Kiser		812-323-7165		Contract manufacturer of orthopedic surgical instruments	20	8		Leased Owner: Kinser Property Managem ent	Mon. - Fri. : 7am-5pm	items are shipped UPS nationwide	Bloomington Martinsville Bedford	Vernal Pike		→Standard utilities	→Passenger vehicles →Delivery trucks	No	→Directly →It will make it harder going to and from →Impede access →Shipments and deliveries are UPS and it will impede access →No gain or Loss of customers	I think that traffic on 3rd St west and east of SR 37 is going to be very bad. Vernal Pike carries a lot of commuters to and from SR 37 who are going to IU and other employers in Bloomington. Most of this will be diverted to 3rd St which is already busy. Industrial Park Dr will be very isolated. There was a rumor that Gates Dr would connect to Industrial Dr but nothing has happened. That would help with isolation and give us more mobility.	I realize that an interchange for Vernal Pike is unlikely but I hope that Industrial Park Dr can at least be made more accessible by connecting it to Gates Dr with a crossing as shown in yellow highlighter. Included Google Map.

Hoosier Energy Rural Electric Cooperative	7398 N SR 37	Bloomington, IN 47404	Robert Rampley	PO Box 908 Bloomington, IN 47402	812-876-0283	rrampley@hepn.com	→Generation, transmission and distribution of electricity →18 electric cooperatives in central and southern Indiana →Corporate headquarters	50	182	0	Own	Open 24 Hour per day 7 days per week.	Delivers power through a 1,450-mile transmission network.	50 Mile radius around Bloomington	Ellis Rd. SR 37	Yes	→Microwave tower →Fuel tanks →Oil containment (large transformer storage) →Material lay down area →Crane accessible →City Sewer	→Passenger vehicles →Delivery trucks →Buses →Mobile sub stations →Semi tractor trailers →Cranes	→Long term corporate headquarters →Possibly upgrading or adding additional office buildings →Expansion of office facilities at this location is one of several options under consideration and cannot be guaranteed →Use existing warehouses and vehicle storage	Yes →Hoosier Energy will be directly affected by the expected loss of direct access to SR 37 for operations resulting in additional time, travel distance and cost for moving freight and passengers facilities at this location →Noise impacts are expected as a result of increased traffic counts along the border of the property adjacent to SR 37 →Loss of access can also diminish the value of real estate and →Reduced access can also affect Hoosier Energy's ability to mobilize and dispatch crews, equipment and materials from this location to respond to power supply events that affect consumers →No customer impact →Impede access	Reduce ability to safely/quickly move vehicles and equipment in and out of facility. The nature of Hoosier Energy's unique business requires consistent and immediate access that we believe will be impeded by the project. As a result, options to mitigate access concerns are being developed at other locations existing and new satellite locations.	As noted Hoosier Energy will also require direct access from I-69 to a primary substation located at Crossover Rd. Locating interchanges at Walnut St and Sample Rd connected by a new or improved roadway on the east side of Hoosier Energy (with direct access to facilities) offers the only optionwe are aware of that will provide 2 access points for Hoosier Energy traffic and maintain approximate equivalency to the access available today. A number of employees utilize the current Tapp Rd interchange to travel to and from Hoosier Energy.

Individual medical offices: Mon. - Fri.: 8am-5pm	Bloomington Ellettsville Greene County Lawrence County	Bloomington Ellettsville	Fullerton Pike			→Passenger vehicles →Delivery trucks →Ambulance →Care service vans		→Directly →Finished project drastically improve	We look forward to the project completion which will be very beneficial and the Fullerton Pike crossing(curre ntly) is very dangerous. We are concerned about access during construction and would appreciate full information regarding construction time line and anticipated closures so we can properly and proactively communicate to our patients, employees, physicians and vendors. Because of the nature of our business it is imperative that we keep ourselves as informed as possible as to not interfere with patient care.	Fullerton Pike is imperative for the hospital to maintain access to the highway off of Fullerton. Rockport Rd traffic doesn't warrant an interchange. Tapp Rd west of I 69 on Tapp is only about 05 miles and residential. Unless the county would make that four lanes which doesn't seem justifiable; an interchange here would serve only east bound Tapp. If there is an option of an eastbound entrance(exit only)that should be entertained.

Smith and Son Auto Repair, Inc.	3101 W Venture Blvd.	Bloomington, IN 47404	Eric Smith		812-335-8397		→RV, trucks, cars and van repairs →Recreational vehicle storage	14	1		Own	Mon - Fri: 9:30am- 5:30pm	Bloomington Martinsville Ellettsville Bedford Brown County	Bloomington	Vernal Pike		→Acreage →RV storage →City water →City sewer	→Passenger vehicles →Delivery trucks →Motor homes	Depends on highway accessibility	Yes →Project will hinder business →Easy access for large motor homes 5th wheels, travel trailers and delivery trucks →Lost customers →Impede →Customers will not have direct route to our facility →Off the main highway →Right now we are easy to get to	Bad idea; If an underpass is the only way to Vernal Pike motor homes, delivery trucks will be unable to go under them. No one in an RV likes to drive an extra 3 or 4 miles to get to a service center.	Because motor homes 5th wheels can not go under normal underpasses; very limited to inconvenient to reach Enterprise Park. 3-4 miles extra to drive is a lot with the present cost of diesel fuel and gas for RV's. Why would you want to shut off Vernal Pike it connects with Woodyard, Curry Pike and back to Smith. A great way to go from SR 37 straight over to Hartstrait Rd. Many people use this road; I'm sure the folks that live in the trailer park would appreciate Vernal staying open. This road is also a very short way to get to downtown Bloomington; especially for hospital emergencies. I am sure the Police Post would appreciate Vernal; staying the way it is.

Business Information Survey

July 3, 2012

3201 West State LLC
101 Hodencamp Ste 200 Rd
Thousand Oaks, CA 91360

Greetings,

The Indiana Department of Transportation (INDOT) continues Tier 2 environmental impact studies along the 142-mile I-69 project corridor from Evansville to Indianapolis. This corridor has been divided into six sections for Tier 2 Studies. Each section is being independently reviewed. Michael Baker Jr., Inc. is evaluating potential human and environmental impacts associated with upgrading SR 37 into I-69 in Monroe and Morgan Counties (Section 5). As shown on the enclosed Reference Map (on page 5), Section 5 is approximately 23 miles in length. It begins at SR 37 near Victor Pike (southwest of Bloomington) and continues along SR 37 to SR 39 in Martinsville. Proposed changes in access associated with each alternative are summarized on Table 1: Section 5 Access Comparison.

You have received this survey because this transportation project is being considered for your area and may affect your business. The purpose of this Business Information Survey is to identify issues and concerns of business owners. The information collected in this survey will be incorporated into the analysis of the impacts of this project on the human and natural environment. You may receive additional requests for information about how the proposed project will affect your business in the future.

Please respond to each question as completely as possible. You may contact us at the number below if you have any questions about the project or would like more information about how to respond to this survey. The time you take to complete this survey and any subsequent surveys mailed to you is greatly appreciated. Please return the form to the address below no later than July 27th.

Thank you very much for your assistance.

Sincerely,
MICHAEL BAKER JR., INC.

☒ Other (specify) Semi's both Vans & Flats, Drop Deck Equipment Semi, some heavy equipment on own wheels

I-69 Evansville to Indianapolis Tier 2 Studies

Project Impacts

15. Do you currently have plans to expand your business? If yes, describe (add employees, add shifts, expand or build new facility at current site) and be as specific as possible.
As the economy recovers, there will be a 15-20% increase

16. Do you believe that your business will be directly or indirectly affected by the project? If yes, how do you believe you will be affected?

Will increase delivery times and most likely cause customers approaching from the South, North and East to choose other vendors due to better, new access

- a. Do you expect to gain or lose customers? Lose
- b. Will access to the site be improved or impeded? Impeded
- c. Will access to or from your market or service area be improved or impeded?
Impeded
- d. Will you lose or gain parking spaces? No
- e. Please describe the effects of any adverse impacts on your ability to continue to conduct business at your current location.
Approximately 75% of customers and employees will have to travel the opposite direction to reach our business

17. Please review the attached table and provide your input on each of the proposed alternatives.

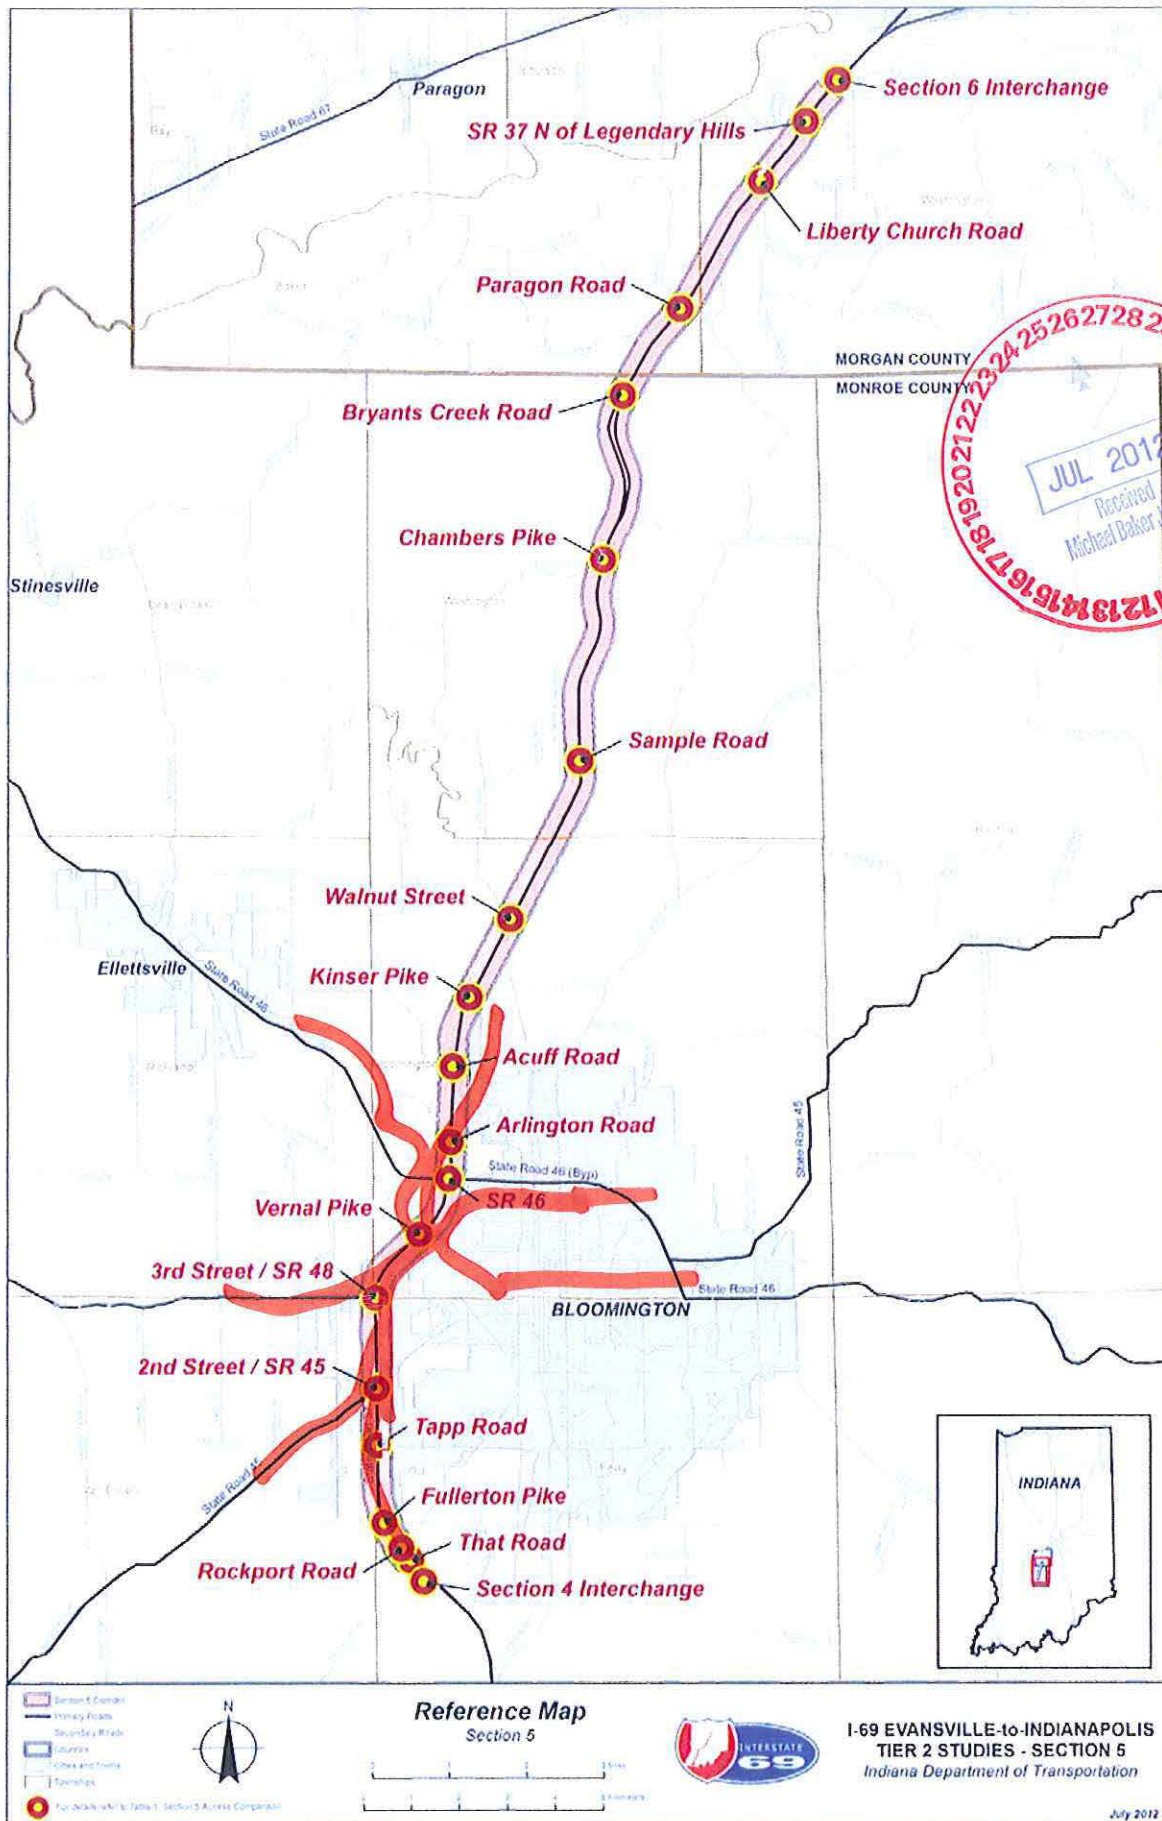

Other Information

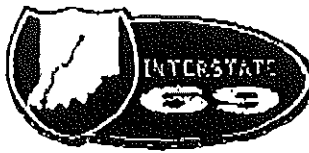

18. Please provide any additional information or comments that you would like us to address.
You may also attach additional sheets or a letter from your business with your comments.
The Overpass/Access to the "New" improved West Vernal Pike to Smith Road is probably the best we can expect and it will be much much better than no access.

Section 5: Bloomington to Martinsville
SR 37 to SR 39

Business Information Survey

July 3, 2012

Bloomington Meadows L P
3600 N PROW RD
BLOOMINGTON, IN

Greetings,

The Indiana Department of Transportation (INDOT) continues Tier 2 environmental impact studies along the 142-mile I-69 project corridor from Evansville to Indianapolis. This corridor has been divided into six sections for Tier 2 Studies. Each section is being independently reviewed. Michael Baker Jr., Inc. is evaluating potential human and environmental impacts associated with upgrading SR 37 into I-69 in Monroe and Morgan Counties (Section 5). As shown on the enclosed Reference Map (on page 5), Section 5 is approximately 23 miles in length. It begins at SR 37 near Victor Pike (southwest of Bloomington) and continues along SR 37 to SR 39 in Martinsville. Proposed changes in access associated with each alternative are summarized on Table 1: Section 5 Access Comparison.

You have received this survey because this transportation project is being considered for your area and may affect your business. The purpose of this Business Information Survey is to identify issues and concerns of business owners. The information collected in this survey will be incorporated into the analysis of the impacts of this project on the human and natural environment. You may receive additional requests for information about how the proposed project will affect your business in the future.

Please respond to each question as completely as possible. You may contact us at the number below if you have any questions about the project or would like more information about how to respond to this survey. The time you take to complete this survey and any subsequent surveys mailed to you is greatly appreciated. Please return the form to the address below no later than July 27th.

Thank you very much for your assistance.

Sincerely,
MICHAEL BAKER JR., INC.

Business Location

1. Provide the full name and address of your business.

Bloomington Meadows Hospital
3600 N. Prosser Rd.
Bloomington, IN 47404

- a. If your business is affiliated with others in the area, please provide the headquarters address if different from the above.

Not directly

- b. Please provide contact information for future correspondence on this project.

Maranda Richardson, Director of Business Development
812-961-2423
maranda.richardson@uhsinc.com

2. On the enclosed map, please mark the location of your business and label the routes of your incoming and outgoing deliveries.

all incoming and outgoing deliveries utilize highway 37
to Acuff Road

General Information

3. Describe the nature of your business, such as the service provided, the type of office, and the type of products sold or manufactured.

Medical / Behavioral health hospital providing inpatient,
outpatient and crisis services.

4. How many years has your business been at this location? 20

5. How many full time employees do you have? 90

6. How many part time employees do you have? 60

7. What are your hours and days of operation? 24/7

8. Do you lease or own your business site? Own

I-69 Evansville to Indianapolis Tier 2 Studies

Transportation and Market Information

9. From where do most of your customers come? (Check all that apply)

- ☒ Bloomington
☒ Martinsville
☒ Ellettsville

☒ Other (Please Identify) Bedford, Nashville, and multiple cities in central and southern Indiana
☒ Out of state Illinois

10. From where do most of your employees come? (Check all that apply)

- ☒ Bloomington
☒ Martinsville
☒ Ellettsville

☒ Other (Please Identify) Bedford, Nashville
☐ Out of state

11. Do employees or customers currently use SR 37 to access your business? Yes
If yes, which cross roads or access points along SR 37 are the most important for access?

Acuff Road

12. Does your business serve a specialized clientele? Yes - those w/ behavioral health needs

13. Does your business have specialized site requirements, such as rail access, acreage, underground storage areas, city water or sewer, permits, etc? Yes
If yes, please describe. City Water + Sewer

14. Which of the following types of vehicles regularly access your business? Check all that apply and provide a general estimate of the number per day.

☒ Passenger vehicles for employees 90

☒ Passenger vehicles for customers 60

☒ Delivery trucks 5

☐ Rail cars

☒ Buses City bus. 8x/day

☒ Other (specify) Medical transport (Ambulance + Medicab) and Average 5/day Police / Sheriff

I-69 Evansville to Indianapolis Tier 2 Studies

Project Impacts

15. Do you currently have plans to expand your business? If yes, describe (add employees, add shifts, expand or build new facility at current site) and be as specific as possible.

No current plans

16. Do you believe that your business will be directly or indirectly affected by the project? If yes, how do you believe you will be affected?

Yes - With no access to Acuff Road and the potential of no access to Kinser Pike off of I-69 we are at risk for losing business to competitors in other cities that are easier to access for consumers and emergency vehicles.

a. Do you expect to gain or lose customers? Lose

b. Will access to the site be improved or impeded? Impeded

c. Will access to or from your market or service area be improved or impeded?
Impeded

d. Will you lose or gain parking spaces? No

e. Please describe the effects of any adverse impacts on your ability to continue to conduct business at your current location.
See #16 above and #18 below

17. Please review the attached table and provide your input on each of the proposed alternatives.

Other Information

18. Please provide any additional information or comments that you would like us to address.

You may also attach additional sheets or a letter from your business with your comments.

Currently 80% + of our consumers, visitors and employees use Hwy 37 to Acuff Road to access our hospital. We have over 15,000 individuals come thru our doors on an annual basis.

Thank you for your participation in this survey

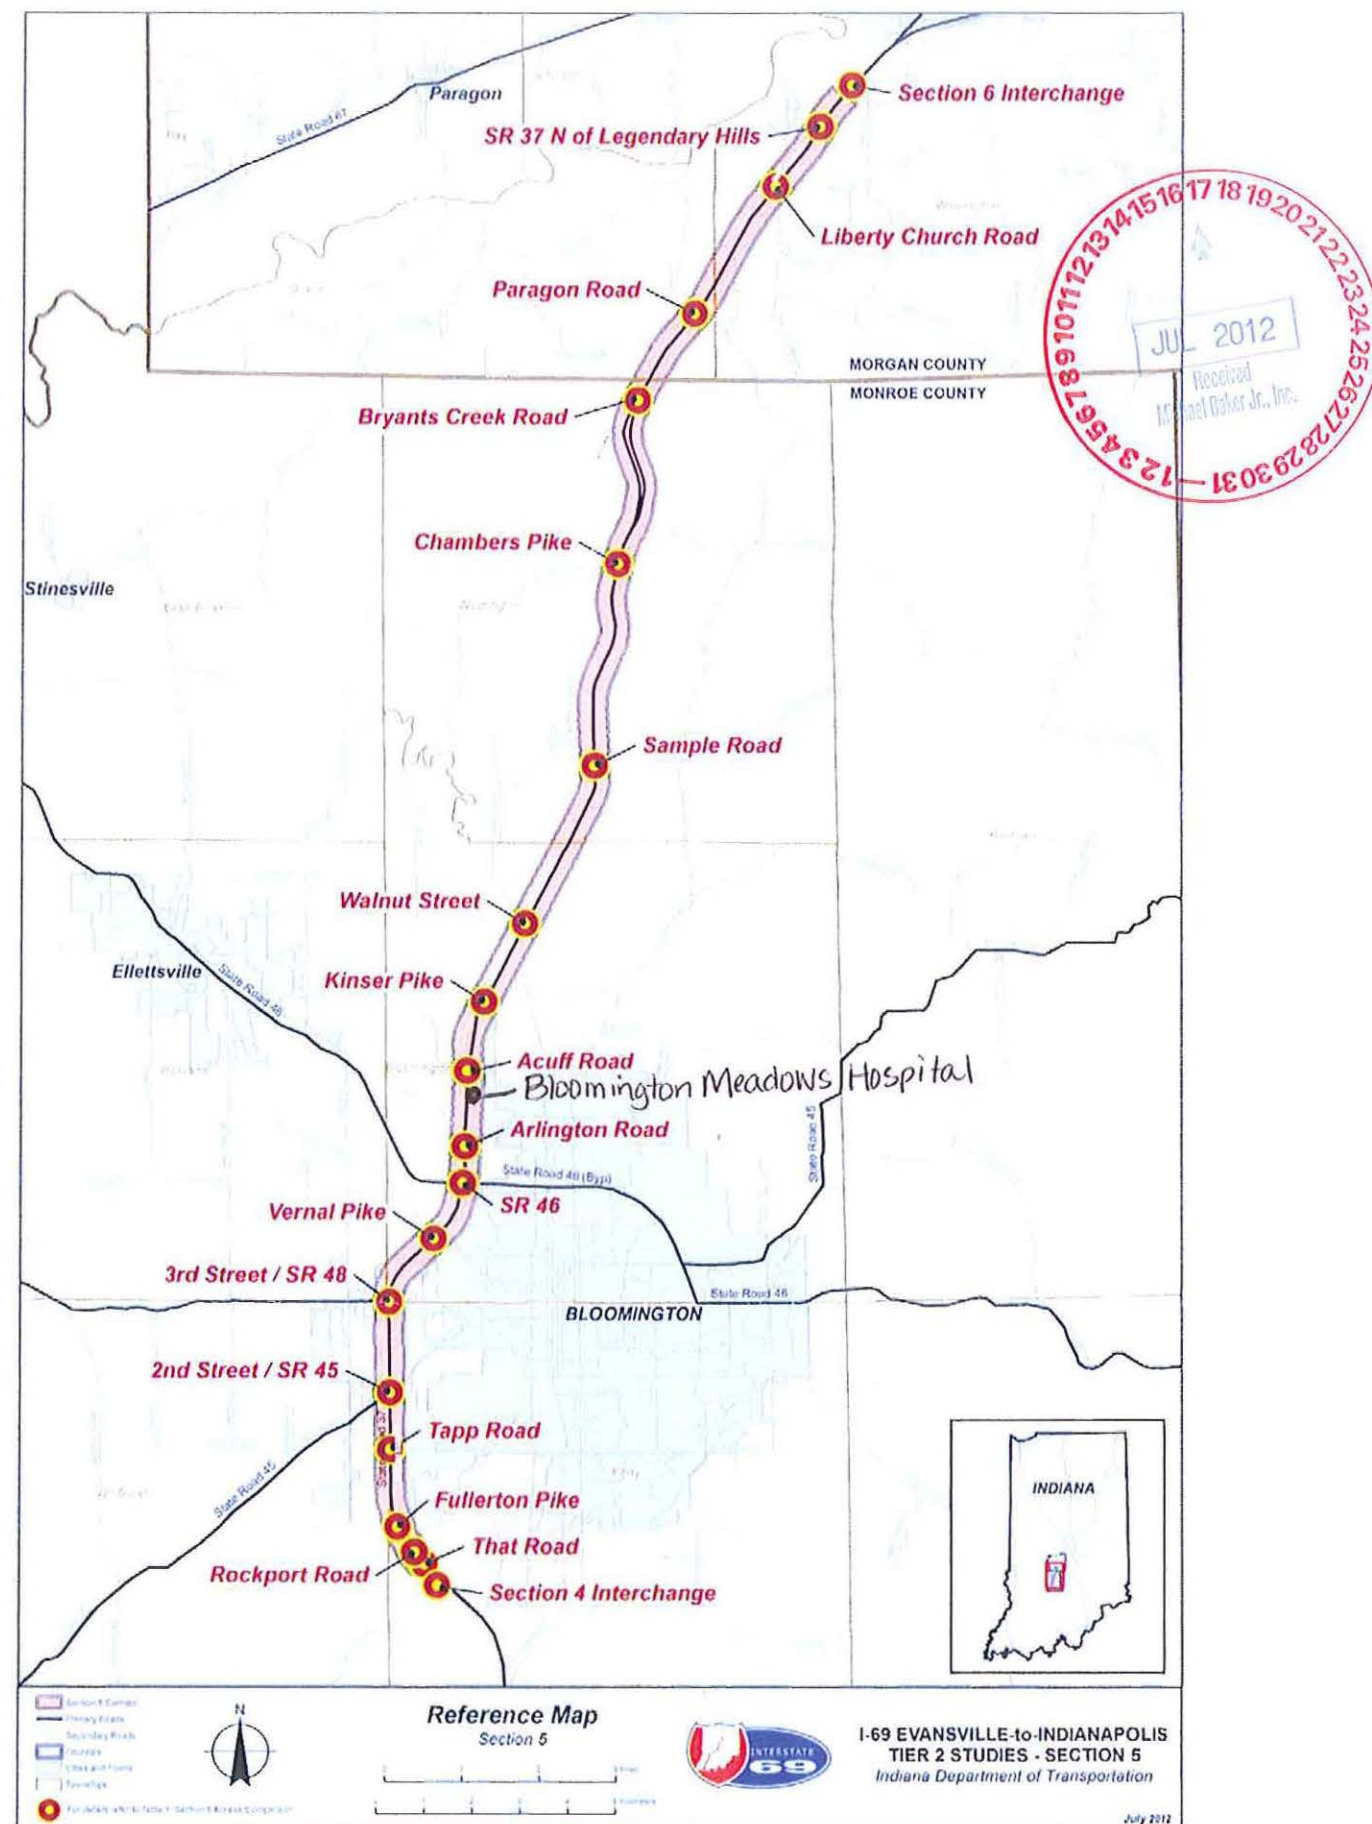

Table 1: Section 5 Access Comparison

I-69

Section 5 Project Office:
3802 Industrial Blvd., Unit 2
Bloomington, IN 47403

Subject: 500 Simpson Chapel Road, Bloomington, IN 47404

CGI Real Estate Holdings, LLC owns the property mentioned above. 500 Simpson Chapel Road consists of a 16,000 SF building; this is a rental property and has a variety of uses. All four alternatives (4-7) for the Sample Road area proposes to eliminate the intersection of Simpson Chapel and SR 37 and access to this properties will be via the new Sample Road interchange.

Here are a few of our concerns:

- Eliminating the Simpson Chapel/SR 37 access will limit our ability to find a suitable tenant that has historically occupied it and potentially diminish the value of these properties.
- There is no plan to upgrade Simpson Chapel Road past the new interchange and to our property at the current crossroad/access. This creates difficulty because this use is designed for companies that utilize large buses and semi-tractor trailers for tenants and deliveries and the current road will limit deliveries and use. We are also concerned that vehicle weight limits on Simpson Chapel will limit the interest we get from potential tenants due to the size of the vehicles that have historically accessed these properties.

Thank you in advance for taking our concerns into consideration. If you have any questions, please contact me.

Sincerely,

CFC Properties

Chris Cockerham

Vice President, Commercial Real Estate

Section 5 Project Office:
3802 Industrial Blvd., Unit 2
Bloomington, IN 47403

Subject: 8111 Lee Paul Road, Bloomington, IN 47404

CGI Real Estate Holdings, LLC owns the property mentioned above. 8111 Lee Paul Road consists of a 13,000 SF building; this is a rental property and has a variety of uses. All four alternatives (4-7) for the Sample Road area proposes to eliminate the intersection of Simpson Chapel and SR 37 and access to this properties will be via the new Sample Road interchange.

Here are a few of our concerns:

- Eliminating the Simpson Chapel/SR 37 access will limit our ability to find a suitable tenant that has historically occupied it and potentially diminish the value of these properties.
- There is no plan to upgrade Simpson Chapel Road past the new interchange and to our property at the current crossroad/access. This creates difficulty because this use is designed for companies that utilize large buses and semi-tractor trailers for tenants and deliveries and the current road will limit deliveries and use. We are also concerned that vehicle weight limits on Simpson Chapel will limit the interest we get from potential tenants due to the size of the vehicles that have historically accessed these properties.

Thank you in advance for taking our concerns into consideration. If you have any questions, please contact me.

Sincerely,

CFC Properties

Chris Cockerham

Vice President, Commercial Real Estate

I-69 Evansville to Indianapolis Tier 2 Studies

Business Location

1. Provide the full name and address of your business.

CFC Properties, Acuff Building, 1025 W. Acuff Road, Bloomington, IN 47408

No mail delivery at Physical address

- a. If your business is affiliated with others in the area, please provide the headquarters address if different from the above.

CFC Properties, P.O. Box 729, Bloomington, IN 47402

- b. Please provide contact information for future correspondence on this project.

Jim Murphy

CFC Properties

P.O. Box 729

Bloomington, IN 47402

2. On the enclosed map, please mark the location of your business and label the routes of your incoming and outgoing deliveries.

General Information

3. Describe the nature of your business, such as the service provided, the type of office, and the type of products sold or manufactured.

Cook Medical and Star Travel occupy the Acuff Building. There are offices and employees as well as customers arrive and depart at this location.

4. How many years has your business been at this location? 13 Years

5. How many full time employees do you have? 173 Employees

6. How many part time employees do you have? _____

7. What are your hours and days of operation? 6:00 am-7:00 pm

8. Do you lease or own your business site? Own

I-69 Evansville to Indianapolis Tier 2 Studies

Transportation and Market Information

9. From where do most of your customers come? (Check all that apply)

☒ Bloomington

serving doctors, hospitals, customers who book travel and meetings.

13. Does your business have specialized site requirements, such as rail access, acreage,
underground storage areas, city water or sewer, permits, etc? Yes

If yes, please describe. acreage, city water, sewer

14. Which of the following types of vehicles regularly access your business? Check all that
apply and provide a general estimate of the number per day.

☒ Passenger vehicles for employees _____

☒ Passenger vehicles for customers _____

☒ Delivery trucks _____

☐ Rail cars _____

☒ Buses _____

☐ Other (specify) _____

Project Impacts

- ~~No~~

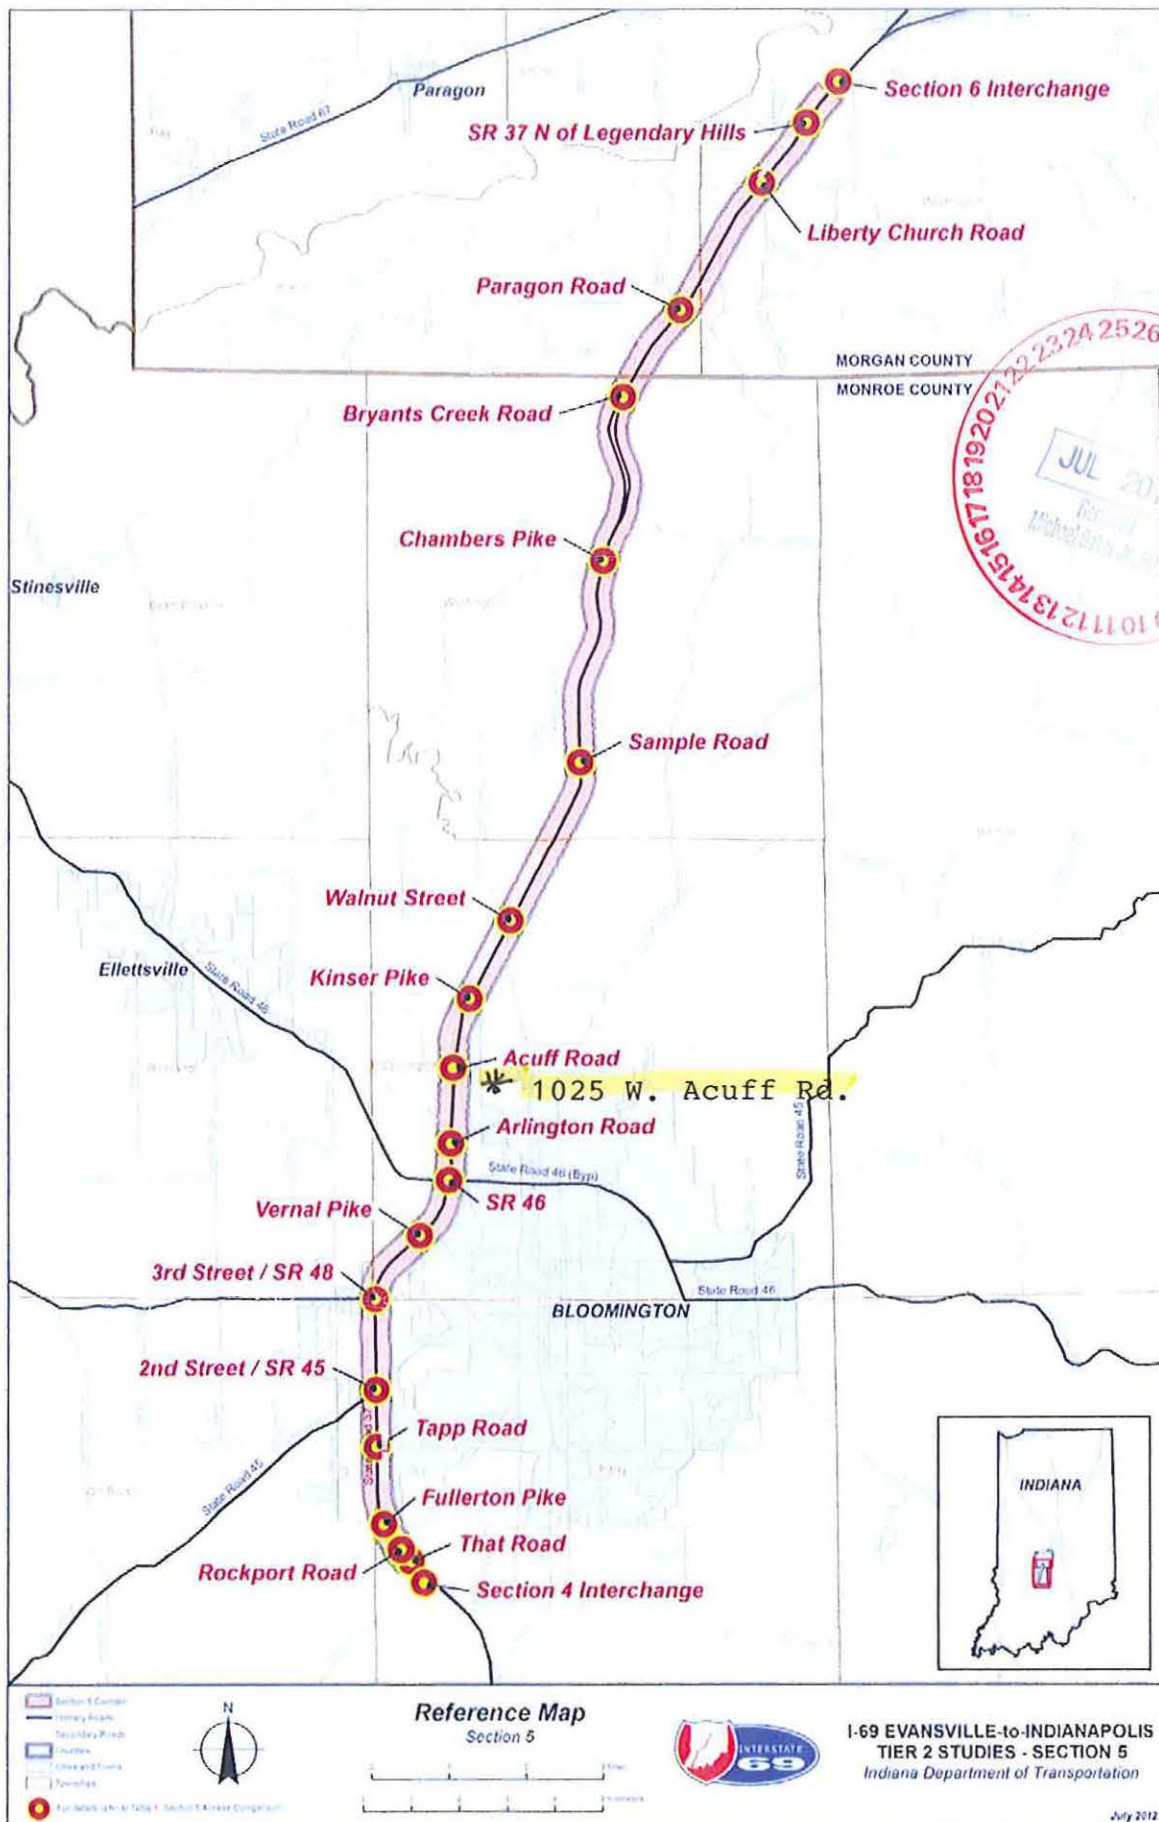

- Yes, not having convenient access to the highway will negatively impact our ability to lease the property for current and future use.

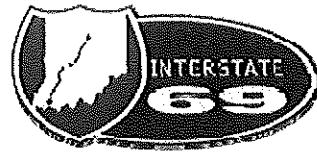

- Employees getting to and from work will be slowed. The loss of access will make it difficult for out of town visitors to locate the business. Deliveries will be difficult. The alternate access is marginal at best.

Project Impacts

15. Do you currently have plans to expand your business? If yes, describe (add employees, add shifts, expand or build new facility at current site) and be as specific as possible.

No

16. Do you believe that your business will be directly or indirectly affected by the project? If yes, how do you believe you will be affected?

Directly. It will be much harder going to & from,

- a. Do you expect to gain or lose customers? No
- b. Will access to the site be improved or impeded? Impeded greatly
- c. Will access to or from your market or service area be improved or impeded?
Shipments and deliveries are via UPS. It will impede them.
- d. Will you lose or gain parking spaces? No
- e. Please describe the effects of any adverse impacts on your ability to continue to conduct business at your current location.
Harder going to & from,

17. Please review the attached table and provide your input on each of the proposed alternatives.

Other Information

18. Please provide any additional information or comments that you would like us to address.

You may also attach additional sheets or a letter from your business with your comments.

I think that traffic on 3rd st. west & east of 37/69 is going to be very bad. Vernal Pike carries a lot of commuters to & from 37 who are going to & from I.U. and other employers in Bloomington. Most of this will be diverted to 3rd street which is already very busy.

~~Access from~~ Industrial Park Drive will be very isolated. There was a rumour that Gates Drive would connect to Ind. Pk. Dr., but nothing has happened. That would help with isolation & give us more mobility.

Thank you for your participation in this survey
